Director Green: Hello everyone. I just have a couple of things on the Board of Health agenda. First, the local health report – the State Health Department has advised us that due to the Covid outbreak the online portal for the local health report has been closed and the report will not be required at least until further notice. I originally promised you that I would have a local health report for last year's activities but at this point I don't know when that will actually be. Second, #8 Special Events - Covid-19 response. I want to thank the Mayor and the Administration for all their support during this epidemic. I feel that all of those updates are invaluable to the community and they are very important. Last, but not least, I want to thank all our health staff who have been working tirelessly to respond to this Covid-19 epidemic. Specifically, the nurses and the environmental staff that have been working overtime and putting in a lot of hours. The nurses have been responding to all these reports of cases we have been seeing and the environmental staff have been responding to all the questions from the public and calls for assistance. Thank you that is all I have.

On a motion made by Councilman Small, seconded by Councilman Bauer and carried unanimously, Council President DeJesus adjourned the meeting at 7:30 P.M.
